## Data protection and sharing of personal data with third parties

The organisers of the ICSN Conference 2019 will collect, process, transfer and store the personal data of registered delegates solely for the purposes of preparing and operating the ICSN Conference 2019. The personal data of delegates will be stored securely and will be accessible only to authorised persons on a 'need to know' basis.

The data entered in the conference profiles (i.e. full name, e-mail address, telephone numbers, company details/profession) will be shared with the following third parties:

- The Conference Secretariat of the ICSN Conference 2019 (data of registered delegates)
- The ICSN Conference 2019 Programme Submissions Committee (data of delegates submitting applications in relation to conference programmes)
- The organisers of ICSN Conference 2019 workshops and sessions who will review abstracts submitted for these workshops and sessions (data of delegates submitting abstracts for workshops and sessions)
- The ICSN Conference 2019 caterers (data of delegates with special dietary requirements).

Delegates irrevocably authorise the ICSN Conference 2019 organisers to collect, process, transfer and store their personal data and to share these with the above third parties. Delegates also explicitly acknowledge and agree that any personal data disclosed in connection with their conference profiles and registration forms will be subject to the laws of the country to which these data are transferred.

The ICSN Conference 2019 organisers will take all measures within their power to ensure that all third parties that process your personal data have implemented appropriate technical and organisational measures to protect your personal data against accidental or unlawful destruction or accidental loss, alteration, unauthorised disclosure or access, and which provide a level of security appropriate to the risk represented by the processing and the nature of the data to be protected.
